January 2021

### **Dr.-Ing. Börne Rensing appointed new CEO at Wieland Electric**

**The Bamberg-based Wieland Electric GmbH has appointed Dr.-Ing. Börne Rensing as its new CEO. As technical CEO, Dr. Rensing will focus on the areas of development and production and will manage the company's fortunes together with Bernd P. Uckrow.**

With over 20 years of industrial professional experience in management positions, Börne Rensing brings practical experience in the areas of development, production and sales. Dr. Rensing is married and has three children.

He graduated in mechanical engineering from RWTH Aachen University, where he also received his doctorate in 2004. Since the early 2000s, he has held several management positions: as a corporate consultant and project manager with well-known German automotive OEMs, as a division manager in a medium-sized electric drive technology company, as a production division manager at HILTI, and as a managing director focusing on technology and sales in a family-run mechanical engineering business.

## **ABOUT WIELAND ELECTRIC**

Wieland Electric, founded in Bamberg in 1910, is the inventor of safe electrical connection technology. Today, the family-owned company is one of the leading suppliers of safety and automation technology and has been the world market leader in the field of pluggable electrical installation for building services engineering for over 30 years.

Wieland Electric is a competent service partner and solution provider for customers worldwide. This is possible with approximately 1,600 employees and subsidiaries as well as sales organizations in more than 70 countries. In addition to Wieland Electric GmbH, since 1998 STOCKO Contact GmbH & Co. KG has been part of the Wieland holding company.

The company's core industries include mechanical engineering, wind power, intralogistics and HVAC as well as building and lighting technology. The broad portfolio includes components, products and solutions for electrical installation, connection technology, power distribution, safety engineering and the control cabinet. In addition, Wieland Electric offers a comprehensive service and training program. With cross-industry experience, a wide range of products and numerous service offerings, the company has consistently developed from a component supplier to a solution provider in recent years..
